# Versatility

COVER SYSTEM®

*Systems are designed and produced entirely in Italy with the artisan's care and attention to detail.*

## For those who believe that doors and windows never change...

Our **extremely innovative** manufacturing concept is based on a **ready-to-install** framework, complete with glass and metalwork, which is **already** fully **functional** on the production site.

**Once** you have defined your home **style**, then it is time to **apply** the selected **Cover**. Specification restrictions can be overcome and possible finishing defects prevented during the manufacturing process.

**Doors and windows as creative as you are, whenever you want.**

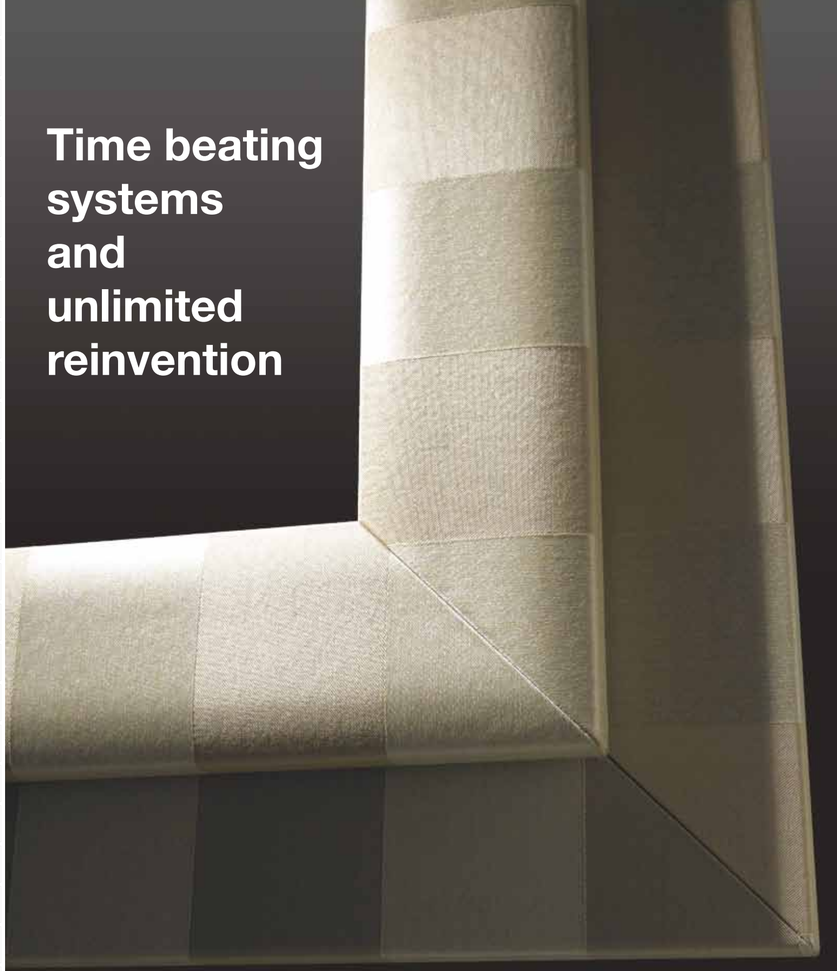
# Time beating systems and unlimited reinvention



INFIXALL
WINDOWS THAT FURNISH

COVER SYSTEM®

# Doors and windows that change appearance at your command

**Cover System** revolutionizes the traditional concept of doors and windows turning them into an extraordinary **furnishing accessory**. Its unique method of construction combines **thermal efficiency, sustainability** and **design**.
The interior **Cover** combines with the ULTRA construction system: this frame, authentic in every respect, can be made in a wide range of materials and is suitable for every kind of furnishing layout and home.
**Fabric, marble, stone, acrylic stone, leather, methacrylate, wallpaper,** all types of **solid wood** and the exclusive **plaster effect**: thanks to this wide selection, it's so easy to choose the right style for your window.

## An easier way to renovate your home, starting from just a simple frame

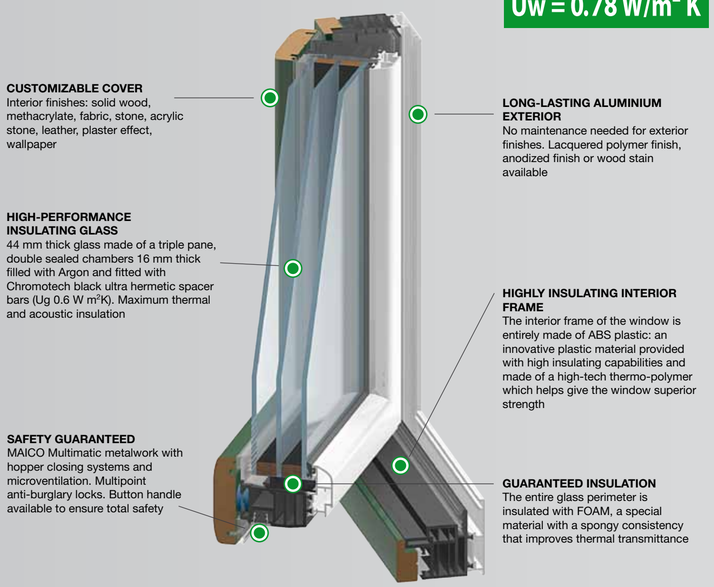
**Cover System** can be transformed at any time whilst maintaining the concepts of **Sustainable Building**: its materials are **recyclable** (exterior aluminium shutters) and biodegradable (interior Cover).
Thanks to this innovative idea there is no need to remake doors and windows, all that's needed is to remove the interior **Cover**, adapt it to your tastes and refit it.
True innovation can be useful, easy and attractive.

## COVER SYSTEM® ULTRA

A brand-new construction system with excellent performance: the combination of three elements, exterior aluminium shutters + interior frame made of ABS plastic + interior customizable Cover, make it compliant with the **latest housing concepts** in terms of thermal and acoustic insulation and design. A solution beyond compare, **developed for areas with extreme climates.**

KLIMAHOUSE

THERMAL TRANSMITTANCE UP TO
**Uw = 0.78 W/m² K**



**CUSTOMIZABLE COVER**
Interior finishes: solid wood, methacrylate, fabric, stone, acrylic stone, leather, plaster effect, wallpaper

**HIGH-PERFORMANCE INSULATING GLASS**
44 mm thick glass made of a triple pane, double sealed chambers 16 mm thick filled with Argon and fitted with Chromotech black ultra hermetic spacer bars (Ug 0.6 W m²K). Maximum thermal and acoustic insulation

**SAFETY GUARANTEED**
MAICO Multimatic metalwork with hopper closing systems and microventilation. Multipoint anti-burglary locks. Button handle available to ensure total safety

**LONG-LASTING ALUMINIUM EXTERIOR**
No maintenance needed for exterior finishes. Lacquered polymer finish, anodized finish or wood stain available

**HIGHLY INSULATING INTERIOR FRAME**
The interior frame of the window is entirely made of ABS plastic: an innovative plastic material provided with high insulating capabilities and made of a high-tech thermo-polymer which helps give the window superior strength

**GUARANTEED INSULATION**
The entire glass perimeter is insulated with FOAM, a special material with a spongy consistency that improves thermal transmittance

How to **renovate** our doors and windows: 3 steps

## Choose your window style

### Versatile **wood** solutions
Every type of wood essence, from natural essence to walnut stain or you can have your choice of any colour. With smooth, bleached, shiny, brushed and inlaid effects and the exclusive Venetian Briccole wood (made from Venetian mooring posts), for a very unique window.

### The minimal essence of **plaster effects**
A flush with the wall window completely blending in the wall as plastered with the same colour. Unlimited reinvention for your doors and windows.

### The creativity of **methacrylates**
Anything can be inserted in the methacrylate: laces, natural materials like flowers, hay, leaves. A plastic, thermal and compact material available in many colours, simply transparent or opal glass to increase your desire more and more.

### The soft touch of **leather**
You can match your window with sofas, armchairs or your home furnishing items thanks to the big variety of leather processed with care and following sustainability principles. For coordinated, stylish and tailored effects.

### The originality of the **stone**
Every kind of granite, stone, acrylic stone, slate, marble, mosaic, porcelain grés can help camouflage your window with the wall which is covered in the same material.

### The refined taste of **fabrics**
Cover System dresses your window with fine fabrics and textiles. Select your fabric from our samples or upon request: from fabrics with embroidery to texture or embossed motives and coordinate your window with curtains and furnishings to make your home extremely polished.

### **Wall paper** creativity
The use of wallpapers makes your surroundings exclusive adding great personality to the rooms. Cover System window can be dressed with the same material giving the idea of continuity between the window and the wall and creating a really characteristic atmosphere.

### The spectacular impression of **light**
Mimetic Light® Cover System allows the placement of LEDs lights – also coloured – on doors and windows. Once installed the lights will make the wall materials stand out.

**Design** **Thermal efficiency** **Personalization**
